Depth: 15 cm (5.9")

Description

An early 19th century 2 day marine chronometer by Parkinson and Frodsham. London Numbered on the brass bound mahogany 3 tier box, and the dial 1769 beautifully signed on the movement and the silvered dial, and with a sprung dust cover. Dial is 8cm diameter The signed chain fusee movement has cylindrical ring-turned pillars and bi-metallic compensated balance with diamond endpiece, blued steel hairspring, Earnshaw spring detent escapement and an internal sprung dust cover. The chronometer retains its charming original tipsey winding key. Circa 1820. A similar example was sold in Eldreds in the USA 2020 and made over \$10000.00
