

Superb Example Of A Culpepper Microscope By Lincoln

Sold

REF: 361614

Height: 42 cm (16.5")

Description

A wonderful and complete 18th century Culpepper microscope in the original mahogany case.

This microscope has a great selection of accessories and retains the original lacquer.

it comes with a beautiful hand written description of its use from the period, possible even in Lincolns hand writing

It has the clever and unusual design of lifting off the box base with the drawer of accessories

We are always looking to purchase items of a similar nature.
