REF: 151259

Diameter: 8.89 cm (3.5")

Description

A great example of a 3.5" floor standing refracting telescope with table top tripod and original box, signed Dolland, London and numbered.There is also an extra box of lenses including a Barlow lense. This telescope can be used for both Day and Night use, and the image is the right way round for Day use. The lacquer and condition throughout this telescope is superb.
